

---

If you're looking for a romance novel to read, we recommend *You Are the Apple of My Eye* by Tsh Oxenreider. This free ebook is featured on our list of the best romance novels on Amazon. *You Are The Apple Of My Eye* offers an intimate look into one family's life as they navigate the trials and triumphs that accompany life in a foreign land. Follow main character Mei as she first discovers love and then struggles to save it from all the obstacles life throws her way: first there were language barriers, then cultural clashes, and finally economic hardships. Along with her new love comes heartbreak as Mei realizes some things may never change no matter how much she strives to bridge the gap between them. This is the first novel by Tsh Oxenreider, who previously served as an English teacher in Taiwan. This is a quick read, especially for those who are more familiar with Chinese customs. The book takes place almost entirely in Taiwan and is very informative on the subject of Taiwanese culture. It also features an unabridged audiobook available on Amazon, iTunes, Audible.com, and GooglePlay. The audiobook has an excellent narrator that does a great job of making the characters come alive for the listener. This story gets at the core of what it means to be human regardless of language or cultural differences. When Mei's love is taken away by death, she questions whether the man she so loved was really her soulmate. Although Mei had loved both men in her life, only one could be her true soulmate. Mei O'Leary believes that she is destined to fall in love with two men-both on opposite ends of the world-two men who will never know what they mean to her. The first is Michael, an American student teaching English in Taiwan. The second is Tony, a Taiwanese man whom Mei meets at work and later learns has loved her since middle school decades before their meeting.

The book is written in 3rd person and starts when Mei meets Michael and continues to follow her life with Tony. *You Are the Apple of My Eye* is a richly told story about love, language, and culture. If you're looking for free romance reads online, you can get started with one of the best romance books on Amazon today.
